Professional Summary

Data analyst with a strong academic foundation in computer engineering and hands-on experience in Python, C++, data mining, and database querying. Demonstrated ability to analyze data, apply analytical techniques, and extract actionable insights. Highly motivated, detail-oriented, and committed to continuous learning in analytics and data science.

Technical Skills

- *Programming & Tools:*
  - Python
  - C++
  - SQL
- *Analytics & Concepts:*
  - Data Mining
  - Artificial Intelligence (Foundations)
  - Object-Oriented Programming
- *Projects:*
  - Data Analysis Project (Python): Analyzed a structured dataset using Python to clean data, explore patterns, and summarize key insights. Applied basic data analysis techniques to support data-driven conclusions.
  - Database Querying Project (SQL): Designed and executed SQL queries to extract, filter, and analyze data from relational databases. Focused on accuracy, efficiency, and clear result interpretation.
  - Artificial intelligence project: collect, clean and filter data in order to find the effect of consuming fruit and vegetables on the adult vitamins level.
  - Practice project edX (python): Data extraction and processing.

Education

Bachelor of Computer Engineering
Yarmouk University, Jordan
Graduated: July 2017

Relevant Coursework:

- Data Mining
- Artificial Intelligence
- Database Systems (SQL)
- Object-Oriented Programming

Work experience:

- Web developing training in orange lab in Yarmouk university

  (August 2016 - January 2017)

Certifications

- Verified Certificate: Python Basics for Data Science, edX (December 2025)
- ESL Certificate, SUNY Westchester Community College (August 2025)

Achievements

Special recognition awards English as a second language for an outstanding degree of effort.

Languages

English: Full Professional Proficiency
Arabic: Native / Bilingual
